

PREREQUISITES

PYTHON IDE:

The screenshot displays the Visual Studio Code interface. The Explorer panel on the left shows a folder named 'PREREQUISITES' containing two files: 'ibmwatson.png' and 'test.py'. The main editor window shows the contents of 'test.py', which consists of two lines of Python code:

```
1 temp="prerequisites"
2 print(temp[3])
```

The bottom panel shows the TERMINAL view. It displays the Windows PowerShell prompt and the command `python test.py` being executed. The output of the command is 'r', which is the character at index 3 of the string 'prerequisites'.

```
